

ORCHESTRATING THE FUTURE OF FASHION WITH STEALTH COSMICA

Data and AI for Strategic Control

THE LIFESTYLE CHALLENGE

Fragile Supply Chain

Global networks break easily and demand fast real-time visibility.

ESG Rules

Strict European tracking requirements and digital passports compliance.

Fast Cycles

Fast-fashion cycles break old, traditional planning models.

Omnichannel

Too many touchpoints and channels to synchronize manually.

WHY LEGACY TECH FAILS

Legacy ERP Rigidity

Monolithic tools built for a slower, linear industry format.

Result: Brands cannot react instantly to sudden changes.

Software Silos

Fragmented platforms create disconnected data across key teams.

Result: Decisions get made reactively using outdated facts.

THE SOLUTION

STEALTH COSMICA

Composable Suite

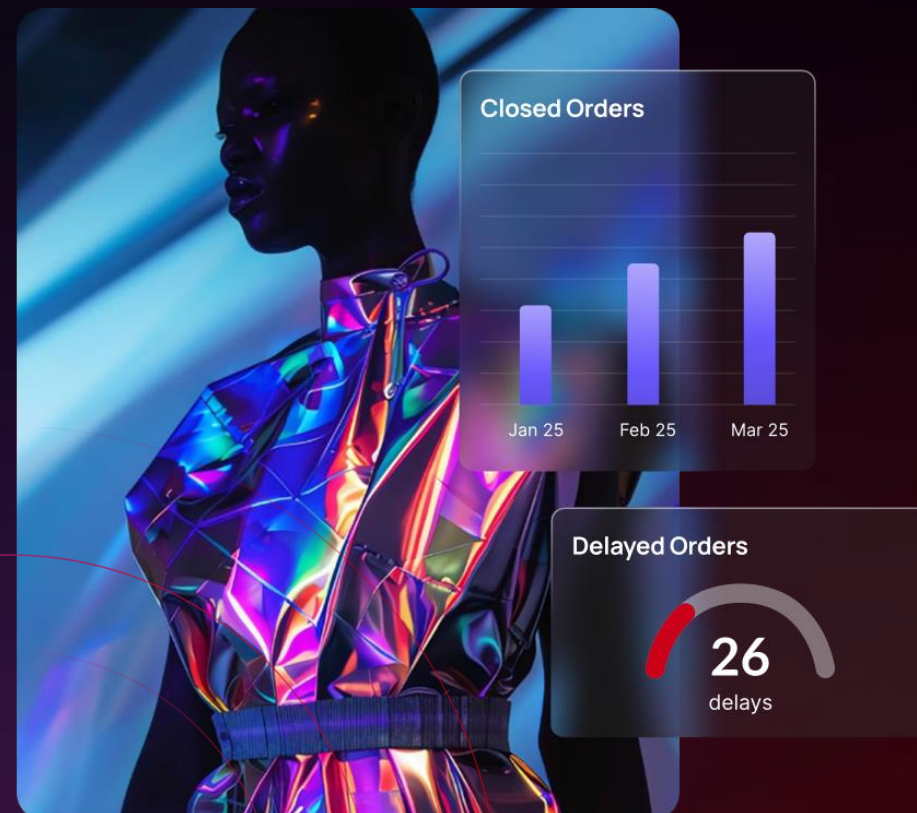

A cloud-native ERP designed for fashion & extended to sportswear, jewelry, and beauty.

Standard Integrations

Naturally connects your PLM, CRM, WMS, and E-commerce with zero vendor lock-in.

Process First

The platform easily adapts to your specific business logic, not the other way around.

SIMPLE DATA & SMART AI

Data Fabric

Connects, collects and structures files, logs, and notes in near real-time.

Predictive AI

Anticipates customer demand trends and runs automated planning scenarios.

Agentic AI

Proposes and executes routine tasks, freeing human time for strategy.

THE VALUE OF ORCHESTRATION

Sustainable Margins

Connecting data from the **supply chain** directly to the commercial channels to protect your brand's financial health.

- Securing availability through dynamic monitoring
- Minimizing stock-outs and costly overstock
- Granular end-to-end process visibility

OPERATIONAL CONTROL

Future Compliance

Treating sustainability not as an afterthought, but as an embedded operational process across the entire ecosystem.

- Streamlining supplier raw material tracking
- Centralizing cross-network item certifications
- Preparing data infrastructure for ESG evolution
